

## 2016 Award Winner

This year, the Interior Design's Best of Year Awards celebrated its 11th Anniversary and had 2,016 entries, from 38 different countries, in 130 product and project categories. We are thrilled to announce that Designer Doorware's new Monte Timber Lever Collection was named the winner in the hardware category during the ceremony.

In its eleventh edition, Interior Design's Best of Year Awards program is the industry's premier awards organisation, honouring the most significant work of the year as well as recognising designers, architects and manufacturers from around the globe.

By introducing the new Monte Timber Collection of levers, we've brought the organic characteristics inside the home, giving people the experience of embracing and connecting with nature at every touch. The collection consisted of Timber Quad, Timber Club and Timber Lanex. These styles can be tailored to complement the design intent of each project.
